

# Northamptonshire Quality Checkers

## What we do:

Quality Checkers visit homes where people with Learning Difficulties live to find out what it is like for the people living there.

### Report

We write a report with ideas of how to make the home better, which is sent to the commissioners.

## Why we are the right people to quality check your home:

We are people who all have learning difficulties and that makes us experts by our experiences.

## Who to contact:

If you would like to find out how much this service would cost your home or just to find out more information please contact:

Quality Checkers Coordinator - Karen Carpenter
