

The NHS Northamptonshire Cold Chain Policy has been superseded by [Immunisation against infectious disease: the green book](#).

Please see chapter 3 of the green book [Storage, distribution and disposal of vaccines: chapter 3](#) for an up to date policy.

If the cold chain has been broken we recommend that you quarantine the affected vaccines in the fridge and check whether the vaccine can still be used with the Medicines Information Centre at Leicester (0116) 255 5779.
