## So That...

- Families could access GPs, HV etc. in one place
- Promotion of community involvement and activities
- Health is more family friendly:
  - It’s easier for patients to integrate into community and social schemes
  - There is a reduction in isolation, fostering good support networks and promoting physical, emotional and mental wellbeing.

## What Could We Do Together?

- Offer a multi-disciplinary network including:
  - Everything that family centres already offer,
  - Breast feeding support & midwives
  - LD and special needs, community paediatrics, secondary care, GP, HV, CAMHS, social services, voluntary sector
- Streamline and integrate health & wellbeing and so
  - Meet all needs for families from pre conception to late teens
  - Use the model to support the work we are doing to improve the care currently being given to looked- after families.”
